

Materials Science & Engineering
Fall 2009
Seminar Series

November 6, 2009

“Combining computation and experiment to accelerate the discovery of new hydrogen storage materials”

Professor Donald Siegel
Department of Mechanical Engineering
University of Michigan

November 20, 2009

“Nano-structured Materials for Next Generation Fuel Cells”

Professor Harry L. Tuller
Department of Materials Sciences and Engineering
Massachusetts Institute of Technology

GWC (Goldwater Center) 487

At 10:40 AM

Refreshments will be provided
