

PEER MENTOR BIOS

Peer Mentor on A1

Name: Nathaniel Boardman

Hometown: Clarkdale, AZ

Class and Major: Sophomore, Civil Engineering

Interests: Hiking, working with kids

"The Engineering Residential Community will help you in and out of class. Being part of a community is what it takes to make a good year into a great year. "

Peer Mentor on A2

Name: Selisa Rollins

Class and major: junior, chemical engineering

Hometown: Phoenix, Ariz.

Interests: traveling, National Society of Black Engineers, baking, chocolate, belly dancing

"Living in the Engineering Residential Community is a great opportunity for incoming students to network and grow academically, personally and socially."

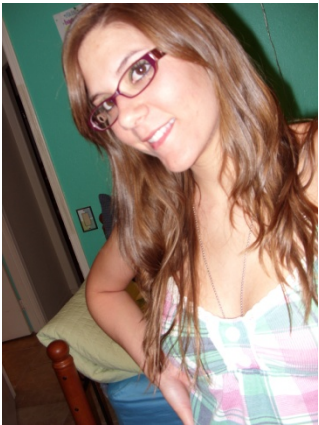

Peer Mentor on A3

Name: Burak Semiz

Class & Major: Junior, Civil Engineering

Hometown: Ankara, Turkey

Peer Mentor on B1

Name: Aleisa Krug

Hometown: Tucson, AZ

Class and Major: Sophomore, Civil Engineering

Interests: Hanging out with friends and being active by playing football or soccer and swimming

“I lived in the Engineering Residential Community for my freshman year. I made a lot of great friends there and we were able to help one another since we faced a lot of the same challenges in our studies, but we also had a lot of fun together.”

Peer Mentor on B2

Name: Matt Cunningham

Class and Major: Sophomore, Aerospace Engineering

Hometown: Glendale, Arizona

Interests: Airplanes, music, reading, video games, hiking/camping, eating, frisbee (Ultimate or Golf), soccer, and relaxing

"I had an awesome time living in the Engineering Residential Community as a freshman because of all that it provides. You are surrounded by friends with similar interests, there are tons of fun events to break up the monotony and help is always available."

Peer Mentor on B3

Name: Logan Gernet

Hometown: Phoenix, AZ

Class and Major: Junior, Electrical Engineering

Interests: Long walks on the beach, candlelight dinners, and ping pong

"The Engineering Residential Community is beneficial because it allows for collaboration and students can always find help from their friends which, in Engineering, is crucial."

Peer Mentor on C1

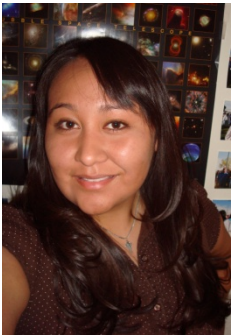

Name: Mariam Martinez

Hometown: Phoenix, AZ

Class and Major: Senior, Construction Management

Interests: Canyoneering, hiking, running, working out, soccer, I love anything outdoors

“ Living in the Engineering Residential Community will be an awesome new experience because you get to meet people from all over, plus you get to wake up 5 minutes before your class starts and still make it on time”

Peer Mentor on C2

Name: Krystal Mike

Class and Major: Junior, Mechanical Engineering

Hometown: Window Rock, Arizona

Interests: I like to play any type of sport, especially volleyball. I enjoy spending time with family, traveling, reading, listening to music, meeting new people and I love to learn something new everyday

“I like living in the Engineering Residential Community because I want the incoming freshmen to have a great experience and to be excited to start off their college career at Arizona State University. It is also a great way to meet new people, network, get recommendations, help with school, find resources, new opportunities and staying focused in school.”

Peer Mentor on C3

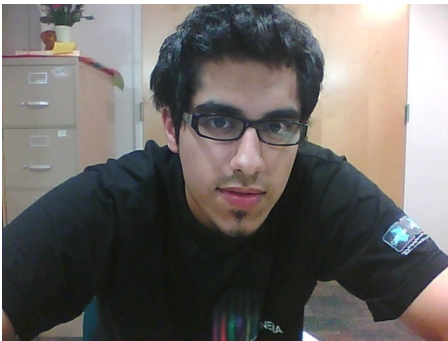

Name: Ramya Baratam

Class and Major: Sophomore, Computer Science

Hometown: Glendale, AZ

Interests: volunteering, hanging out with friends, movies, music, bball, laughing, smiling, dancing

“Living in the Engineering Residential Community will help individuals become more involved with the engineering school, surround them with an environment that is academically supportive with various resources at their finger tips and provide them a social network that they can fit right into.”

Peer Mentor on D1

Name: Ankit Makhijani

Hometown: Kuwait / India

Major: Sophomore, Industrial Engineering

Interests: Swimming, volleyball, reading, listing to music, hiking

“I enjoy living in the Engineering Residential Community because it helps develop good relations with other engineering students and encourages teamwork. Different programs and events make everybody involved and nobody feels left out. It makes resources like tutoring more accessible to students which results to good grades. In all it is a great opportunity for students to grow personally, socially and academically.”

Peer Mentor on D2

Name: Thomas Villarreal

Class & Major: Sophomore, Mechanical Engineering

Hometown: Yuma, AZ

Interests: Riding bikes, video games, long long walks on the beach, and making people laugh at my expense

"Living in the Engineering dorm is such a great advantage because no longer are you a little lonely fish in the big ocean called ASU. You are literally surrounded by people who will be enduring the same madness freshman year brings. These fellow engineers and the resources available at the dorm will help you tackle your first year successfully."

Peer Mentor on D3

Name: Brett Gall

Class/Major: Sophomore, Electrical Engineering

Hometown: Carol Stream, IL, but currently residing in Gilbert, AZ

Interests: Theatre, Civil Air Patrol, Improv, Longboarding, Writing, Music, Movies, Food, NRA Marksmanship

Quote: "I really enjoy living in the Engineering Residential Community because I make lasting friendships with people who have engineering majors, and are in the same classes that I am. I really look forward to meeting more people this year at PV Main!"
