American Express
American Express heritage was built on service and has been sustained by innovation. Through our evolution from and express mail business in 1850, to one of the worlds largest card issuers by purchasing volume and a digital innovator, weve never been afraid to explore new possibilities and embrace the changing marketplace.

From our high employee Satisfaction ratings to our many workplace awards, American Express is consistently recognized as a great place to work by people around the world. We offer talented individuals challenging work with purpose by embracing both innovation and tradition. As our company has grown and evolved, sometimes reinventing our business outright, we have never strayed from the customer-service ethos and values on which the company was built trust, securit...
Archer Western Contractors

The Walsh Group has practiced general building construction since its foundation in 1898 by Matthew Myles Walsh. Currently in its fourth generation of leadership, the firm has been a family held business since that time. Walsh Construction was incorporated in the State of Illinois in 1949; in order to facilitate national expansion efforts, The Walsh Group and additional subsidiary Archer Western were founded in 1983. Each company has experience with a wide variety of building, civil, and transportation sectors including water and wastewater treatment plants, rapid transit, highway and bridgework, educational facilities, warehouse/distribution facilities, athletic facilities, correctional facilities, office, design-build, and more.

Au' Authum Ki, Inc.

Founded in 1992, Au' Authum Ki, Inc., (AAK) began as a small site utilities contractor. A member of the Salt River Pima-Maricopa Indian community, Margaret Rodriguez started AAK as a way to fulfill her father’s dream of going into business and the construction industry provided that opportunity for Margaret. Although not in the residential construction business, Au’ Authum Ki is Pima for “People’s House” and reflects Margaret’s culture and vision.

Knowing that the construction business is tough and even more difficult for a Native American woman, Margaret’s determination is confirmation that hard work, sacrifice and perseverance will pay off. What once began as a small company with an initial bonding capacity of just $30,000, has grown over the past 22 years into a $...

Micron Technology

For more than 30 years, Micron’s teams of dreamers, visionaries, and scientists have redefined innovation—designing and building some of the world’s most advanced memory and semiconductor technologies. We develop the technologies that transform what’s possible.

In fact, you likely use our memory every day—in products from computing, networking, and server applications, to mobile, embedded, consumer, automotive, and industrial designs. As one of the most prolific patent holders in the world we continually rethink, recast, and advance new ideas to bring innovation to broader markets and find ways our technology can inspire new applications or make fundamental improvements to existing designs. Our roots are in memory, the core strength of our business. As we look toward the fu...

Zodiac Aerospace

More than 100 years ago Zodiac Aerospace began developing their expertise in aeronautics with the advent of airships and airplanes. Now, Zodiac Aerospace is a diversified group of companies with a global presence. Part of that group is Zodiac Seats, U.S. (ZSUS) one of the world’s top manufacturers of commercial aircraft seats for airlines and major aircraft manufacturers today! Our headquarters and primary manufacturing facility is located on a half-million-square-foot campus in Gainesville, Texas. Visit https://zodiacaerospacejobs.findly.com to learn more.
