## English Language Proficiency requirement

International students may have an additional English language proficiency requirement. Applicants who are not U.S. citizens, U.S. permanent residents, or a citizen of a country listed on the [ASU English Speaking Country list](#) must demonstrate English Proficiency by submitting test scores. Admission to all Fulton Schools degree programs except those in the Polytechnic School and School of Manufacturing and System Networks require **one** of the following: a minimum TOEFL score of 79 on the iBT (internet-based test); or a minimum International English Language Testing System (IELTS) score of 6.5; or a Pearson Test of English PTE score of 58; or a Duolingo English Test score of 105 (currently approved for 2022 and 2023 semesters). For more information on ways to satisfy English Proficiency please visit <https://admission.asu.edu/international/undergrad/english-proficiency>.

## Change of Major

Students interested in changing their major to one of the majors within the Ira A. Fulton Schools of Engineering must meet the admission requirements. Note that the GPA requirement for change of major is calculated using all coursework (ASU + transfer GPA). A useful tool to view the combined ASU+transfer GPA and the courses required to be completed in order to meet the secondary criteria requirements is the FSE Secondary Review Audit in DARS.

Please review the Admission Requirements above for a complete list of degree programs that have secondary review criteria. Students admitted as freshmen into the Fulton Schools of Engineering, with the exception of the Polytechnic School and School of Manufacturing Systems and Networks, and who have maintained continuous enrollment in any Fulton Schools major may choose to change to any other major within the Fulton Schools of Engineering provided they are in good academic standing.

Students admitted to the Polytechnic School and School of Manufacturing Systems and Networks must meet the transfer admission requirements in order to change to a Fulton Engineering major outside of the Polytechnic School School of Manufacturing Systems and Networks. Transfer students admitted to the Fulton Schools of Engineering from a non-ASU institution or another college within ASU must meet the transfer admission requirements in order to change to any other major within the Fulton Schools of Engineering.
